I hereby certify that the radiograph submitted is of the animal described on this application. I am aware that the radiographic image will be retained for the records of the Orthopedic Foundation for Animals, Inc. I understand the evaluation is based upon the independent, professional judgment of consulting radiologists, and I hereby release the OFA from any and all liability resulting from the evaluation. I understand that only normal results will be released to the public unless the initials of a registered owner appear in the authorization box below which permits the OFA to release abnormal results to the public.

Signature of owner or authorized representative

Authorization to Release Abnormal Results

I hereby authorize the OFA to release the results of its radiographic evaluation of the animal described on this application to the public if the results are abnormal _____ (initials of registered owner).

Veterinary Information

Required Positioning:

A medial to lateral projection of each shoulder with the shoulder of interest pushed cranially. To prevent superimposition the opposite shoulder should be moved caudally by taking the paw of that limb toward the pelvis.

Has the animal experienced any lameness?

Yes No

Limb: Right Left

Fees

Animals over 12 Months

Shoulder evaluation by itself..... \$25
 Shoulder in addition to hips and/or elbows.....\$5
 Litter of 3 or more submitted together \$45

Kennel Rate—Individuals submitted as a group, owned/co-owned by same person.

Minimum of 5 individuals.....\$15 per study
 Shoulder in addition to hips and/or elbows..... no fee

I certify that the standards for examination as set forth by the OFA were carefully followed in performing this examination.
 IDID verify tattoo/microchip on this dog **IDID NOT** verify tattoo/microchip on this dog

Veterinarian Signature

Specialty: Practitioner, Specialist

 Visa/Master Card Number

 Name on Card

 Exp Date

 CVV (security code)

OFA Database

The shoulder database of the OFA is a voluntary program established to evaluate shoulder radiographs and to identify films showing no radiographic evidence of osteochondrosis (OCD), degenerative joint disease (DJD), or other orthopedic problems. All films submitted that are of acceptable diagnostic quality will be reviewed by a qualified veterinary radiologist and a report will be returned to the owner of record and to the referring veterinarian. Only animals that are 12 months of age or older to the day at the time of radiography, with no radiographic evidence of OCD, will be assigned a breed OFA number. The OFA does offer a consultation service for dogs under 12 months of age.
